

Target Area Evacuation Procedure Explained

In a statement issued today, Civil Defence Director, Mrs. B. Johnson for the Town of Didsbury, discussed the four stages of procedure planning to ensure the survival of target area residents in the event of nuclear attack on this country.

"In order to understand their role in the threat of war becomes apparent, citizens of target areas should be acquainted with the four basic phases of evacuation planning for their safety.

Phase A- There will probably be enough warning of the possibility of attack to ensure that at least half of the population can be taken out of the city to communities some distance away. These people should include children up to high school age, mothers with small children, expectant mothers, the aged and infirm, patients and staffs of hospitals and other institutions, those who have key work to do and many others not essential to the needs of the city.

Phase B- The second step of the evacuation plan calls for a "planned withdrawal" of the entire population when an attack on this continent is certain. This is done by using every available means of transportation.

This "evacuation" must be done according to a carefully worked out plan. The city must be divided into sectors and each sector given its own exit route. These routes must have no cross-traffic and no incoming traffic for a distance of 25 miles or more. In this way most exits will have two or more traffic lanes all moving outward at about 25 miles per hour. The people are picked up at assembly points on roads leading to the exit routes, and all vehicles (including trains) are to be filled.

Where practical, people should bring blankets, food, first-aid kit, flashlight and other essentials.

Remaining behind will be a small group of police and Civil Defence workers who will protect the city against fires and looting. This rear guard will move out of the town area at the last possible minute and take shelter on the outskirts.

CREMONA NEWS

Robert Lincoln Reid, well known in this district, passed away on Saturday, September 6th, at the age of 74 years. Mr. Reid taught school in this vicinity for over 25 years. Among the schools he taught were Elkton, Sunnyslope, Altona high school, and Cremona high school. He retired in 1949 and made his home in Vulcan.

He leaves to mourn his loss, his wife; one son, George, of Vancouver; two daughters, Mrs. Russell Graham of Vulcan and Mrs. Charles MacDonald of Vancouver; one brother, Boudie, of Grand Rapids.

Mrs. Reid requested that those wishing to pay tribute contribute to the memorial fund of the local United Church.

A military funeral was held at Cremona on September 9th and interment took place in the Cremona cemetery.

Mr. and Mrs. Jack Betts and family holidayed the last week of August south of the border.

Mrs. Betty Gillis, Danny and Reggie, and Mrs. Nellie Dewhurst, returned last week from a visit to the west coast. Mrs. Gillis' visit with her father was marred by the illness of her father, Mr. Croft.

Eileen Young entered the Didsbury hospital for treatment of a finger infection last Monday.

Jack Barlowe returned home Friday, Sept. 5th, after spending several days in the Didsbury hospital. Mr. and Mrs. Harvey Foster of Saskatchewan were Sunday visitors with Mr. and Mrs. P.C. Sirr.

Little Andrew Lee Spence, infant son of Mr. and Mrs. Wm. Spence, came home for the first time last week from the Calgary General hospital, where he had spent several weeks since birth. He weighed 2½ lbs. at birth and was the smallest baby born in the General hospital in the past eight years.

Mrs. L. Bouck spent a few days in Calgary with Mr. and Mrs. Bouck last week, sharing the delight of her grandson's home-coming.

Mr. Tom Sirr is visiting with Mr. and Mrs. C. Sirr of Water Valley for a couple of days.

A shower for Shirley Penner was held in the Graham school on August 6th.

CAN YOU TOP THIS GARDEN???

Mrs. C. G. Neufeld, who farms approximately 12 miles east of Didsbury, sent us one of her garden specials on Wednesday. It's a cucumber, well formed, gold and 10½ inches in length. The circumference is just about what we think it should be.

Mrs. Neufeld also has pea plants 8½ feet tall, with well-filled pods and has a potato crop, standing 4½ feet tall in bloom, that are no disgrace to any denizen of the spud patch.

The cucumber mentioned above is on display in The Pioneer Office. You don't have to bring your own ruler to measure the monster, we'll supply that part of the equipment.

Phase D- This is the period when hundreds of thousands of people will be scattered outside the city in small communities up to one hundred miles away. People may be separated from their families and must be brought together as soon as possible. They must be kept informed, provided with food, shelter and clothing and protected against "radioactive fallout".

Mrs. B. Johnson, Director in concluding her remarks stated that Civil Defence Day, Friday, September 19th, is being held to acquaint the people of Canada with the facts necessary to help Canadians assess the dangers of and remedies for their country's survival.

WESTCOTT SR. GROUP HOLD INTERESTING MEETING

Mrs. Ed Klink was hostess for the September meeting of Westcott Sr. W.I., at which the topic of health was taken by Mr. Shields Sr. The article was entitled "Living in the Golden Age" and dealt with the many new discoveries of the past decade.

It was decided to purchase a hospital stool for use in the local hospital. Two interesting talks were given, one by Mrs. C. Rinehart (read by Mrs. Robertson), and one by Mrs. Ed Klink.

MOUNTAIN VIEW

Friends of little Kathy Gooding, daughter of Mr. and Mrs. Doug Gooding, will be pleased to know she is now able to sit up, after spending the past 18 months flat on her back in the Crippled Children's hospital in Calgary. It is hoped she will be home within the next few months.

Mr. Wm. H. Snyder returned home Saturday after spending the past couple of weeks visiting with Mr. and Mrs. Art Snyder and family at Fort Macleod.

Miss Marilyn Nuss visited Friday with Mrs. Alex Pratt.

Mrs. Harry Van Teetering of Carstairs spent a few days last week visiting with her parents, Mr. and Mrs. Tom Pratt.

Mr. and Mrs. Jack Freeman of Calgary and Mrs. John Davis of Hilda visited Sunday with Mr. and Mrs. Doug Gooding and family.

Mr. and Mrs. E. Pederson and Marlene of Medicine Hat visited with Mr. and Mrs. John Snyder and family recently.

Fish and Game Group Schedule Important Meeting Saturday Night

The Didsbury Fish and Game Association will hold an extra special meeting in the Lions hall on Saturday, September 13th, at 9:00 p.m.

The meeting is being called to discuss plans for the establishment of a fish pond in the Didsbury area. The association has a site picked which is quite suitable. All that is needed is the public's co-operation. This project can not be proceeded with unless there is a large turnout at this meeting. Let's give the youngsters fishing—right at home.

Gillian Salmon, seven-year-old polio victim, and her three-year-old brother, Anthony, whom she saved from drowning in the RCAF officers' swimming pool at St. Hubert, Que. She threw a life preserver to the lad after he fell in.

An Open Letter To Town Ratepayers

Last week it was announced that elections for town council were to be held on October 6th. How many of you noticed that? And how many realized the importance of this election?

I charge you, electors of Didsbury, that you have a very serious decision to make on October 6th. Shall things stay as they are or will Didsbury keep pace with the astonishing rate of progress being made by the rest of the province.

The outgoing councillors are to be afforded the highest praise and commendations for their contribution in the past, to the progress of Didsbury. However times and trends of thought change, and now, young ideas and virgin enthusiasm are required to keep abreast, even to surpass if possible, the progress of other towns in Alberta.

That is why the onus is on you, the voters. Think about this election — do not let it slip past as it has done in previous years. In a world where things change with frightening rapidity, we must also change or be left by the wayside.

(Signed) J. MILLAR

RUGBY W.I. HOLDS FALL MEETING

The Rugby W. I. held its regular meeting at the home of Mrs. L. Krebs with thirteen members and one visitors present.

Roll call was answered with a current event. Suitable material for the Jubilee scrapbook is to be sought to the next meeting. October 29th is the date set for the Turkey Supper at the Rugby Hall. Mrs. Harvey Hoogwood presented a paper on United Nations in the form of a quiz. All members interested in Copper Tooling are reminded to bring a 39c copper tooling kit or small pieces of copper to the next meeting.

During the month of August, the Rugby W.I. and a few friends went blueberry picking. The day was relaxed in all its fun and laughter when a poem, entitled "Blueberry Time" was read by the poetic composer, Mrs. L. Chandler.

LEGION SCHOLARSHIP TO BE PRESENTED

A presentation of a scholarship, sponsored by the Ladies' Auxiliaries of Zone 2, Canadian Legion, will be held at the Olds branch of the Canadian Legion on Friday, September 12th. Members of the Didsbury Legion are cordially invited to attend this function.

SPRINGSIDE NOTES

(From Our Own Correspondent)

Mrs. Jock MacArthur and Mr. Wm. Novakus returned to Calgary Monday after spending a few days with Mr. and Mrs. Verne Wrigglesworth.

Mrs. Roy Adam spent the weekend with Mr. and Mrs. Lloyd Kershaw.

Mr. and Mrs. Harry Houston (Janet Adam), were saying goodbye to friends and relatives last week prior to their departure for Newfoundland, where they will make their new home.

BIRTHS

AT THE DIDSBURY MUNICIPAL HOSPITAL

To Mr. and Mrs. A. Biederstadt of Crossfield, on September 8th, a son.

This Week's Hail Report...

(Following is a report from the W.R.D.C. hail suppression unit that is situated on the butte just west of town and covering an area of 750,000 acres, which includes the M.D. of Kneehill, M.D. of Rocky View and the City of Calgary.)

There has been no important shower activity in or near the hail suppression area during the past week. Ground generators were started on several days when it appeared that some cumulus clouds might develop, but when the clouds failed to materialize, the generators were turned off.

The weather has been favoring the farmers as well, and some estimates have it that more than 85% of the crop in the area has been swathed, while better than 20% has been threshed.

The morning of September 3rd produced some scattered, light frost in the region, but in general the frost does not seem to have been too significant, with the damage being very spotty.

Information has recently been received from an area west of Alder, which received some hail damage on July 3rd. The crop has come back very well and has produced some excellent yields, particularly in the oats. This area is one of the four in the hail suppression project which have received some hail damage this season. The other three areas are the Dalrymple-Reema region, the Sunnyslope area, and the area near and east of Three Hills. None of the damage, so far, has been extensive.

The hail suppression terminates at noon on September 25th.

Subscription Note:

A red line under your name means your subscription is overdue.

A blue line means your subscription is coming due next month.

Please pay out of town subscriptions by money order.

ROBERT B. ERB RECEIVES PROMOTION

Promotion from the rank of captain to major for Robert B. Erb was announced last week by the commanding officer of the Calgary Highlanders, Lt.-Col. D. E. Lewis. Major Erb commands the Support Company of the unit. Originally enlisting with the South Alberta Regiment in 1950, Major Erb received his commission in 1951 and joined the Calgary Highlanders in January 1952 and was promoted to the rank of captain in 1954.

In civilian life he is an official of the Alberta Motor Association with offices in Calgary.

Major Erb is a son of Mr. Henry Erb of Didsbury.

Obituary

EDWARD FOSTER ANDERSON

Mr. Edward Foster Anderson passed away in the Three Hills Municipal hospital on August 25th, at the age of 85, following a brief illness.

Mr. Anderson was born at Harrison, Ont., on June 14, 1873; was a South African war veteran, serving with the Lord Strathcona Horse. He came west to Edgley, Sask., in 1893 and in 1914 moved to the Didsbury district. He married Mrs. Lina Davidson on Aug. 9, 1921.

Mr. and Mrs. Anderson farmed in the Lone Pine district where he took an active part in community affairs. They retired to Calgary in 1939; in 1951 he was predeceased by his wife. He then took up residence with his step-son, Harold Davidson, in Sunnyslope, where he remained until entering Three Hills hospital.

Funeral services were held in Sunnyslope on August 30th with Rev. T. J. Wood officiating. Interment took place in the family plot at Markerville.

Surviving are two sons, Lloyd Edmond Anderson, R.C.A.F. Germany; Edwin Foster Anderson, Calgary and two step-sons, Joe Davidson, Vancouver, B.C. and Harold William Davidson, Sunnyslope. A third step-son predeceased him in 1954.

553 Students Register Here

Following is a run-down of the number of students, by grades, that are attending school in Didsbury this term:

Grade One	56
Grade Two	46
Grade Three	51
Grade Four	53
Grade Five	53
Grade Six	38
Grade Seven	57
Grade Eight	48
Grade Nine	59
Grade Ten	33
Grade Eleven	36
Grade Twelve	23

Total enrolment at the local learning centre this year adds up to 553 at this time.

HOME AND SCHOOL ASSOC. TO START FALL MEETINGS

Tonight (Thursday), at 8 p.m. the opening meeting of the Didsbury Home and School Association for this season will be held in the school auditorium. It will take the form of a social evening, especially to welcome the teaching staff for this term.

All parents of students are urged to attend (that includes the dad!) to get acquainted with your children's teachers and demonstrate to them an interest in the school.

I.O.D.E. Name Scholarship Winner

Miss Barbara Jackson, daughter of Mr. and Mrs. Harry Jackson, is the winner of the \$50 scholarship for 1958, presented by Mons. Chapier, I.O.D.E. In reviewing Barbara's academic standing, Mr. E. T. Wiggins said she had attended Didsbury high school for grades ten, eleven and twelve. He said Barbara was industrious and determined to achieve her goal. Her average at June Grade 12 departmental examinations was 85.6 per cent.

Miss Jackson has registered for a teacher-training course at the University of Alberta, Calgary branch. Mrs. Alex Robertson, educational secretary, made the presentation and on behalf of the members of Mons. Chapier wished Barbara every success in her future endeavors. Mrs. Jackson was present for the occasion.

JACKSON W.I. HONOR 10-YEAR MEMBER

The Jackson W.I. August meeting was held at the home of Mrs. C. Eckstrand. Wearing of a hat and what it represents, was the roll call, which was answered by 14 members and two visitors, and proved to be quite comical.

Mrs. H. C. Richardson, constituency convener, was guest speaker and gave highlights of what has been done and what is planned by the W.I.s. Mrs. R. Krueger will demonstrate the making of cream puffs at the September meeting.

It was decided to make a donation to the Senior Citizens' Home toward a deep freeze. Mrs. Krueger was asked to look into prices for the printing of cook books, to be made up by the W.I. A social evening and film on mental health was scheduled for October 24 at West Hope.

An A.W.I. spoon was presented to Mrs. A. Robertson for ten consecutive years of membership in the institute. Mrs. Robertson has 30 years of institute work behind her.

The citizenship topic was given by Mrs. C. Eckstrand on "Civil Defence and Your Life." The five-minute talk was given by Mrs. S. Low, and was entitled: "What a teen-age driver thinks of what you think of him when he drives."

Kin Korner

Next meeting of the Kinsmen will be held on Monday, September 15th, when the important topic of a C.W.I. will be discussed.

Members are reminded to bring a "buddy".

It is expected that a report of the Little League baseball season will be available for next week's issue of this paper.

STONES IN GRAIN

A SERIOUS DEGRADING FACTOR

Modern methods of harvesting cereal crops have introduced problems. One of the more important of these is the increased occurrence of stones and earth pellets in the threshed grain. The growing importance of this problem has been responsible for the establishment, by the Board of Grain Commissioners for Canada, of a new and stringent set of regulations governing admixtures of stones and earth pellets in Western grain which are not removable by ordinary cleaning methods.

Low Tolerances. The tolerances of stones and earth pellets allowed in the different grades of wheat, oats, barley, rye and flax are now exceedingly low! In wheat, for example, No. 1 Northern must be free of stones. No. 2 Northern can only contain one stone per 500 grams (500 grains equals 1.1 pounds). No. 1 Northern wheat that contains over one stone and not more than three stones per 500 grams is degraded to No. 3 Northern. All grades of wheat containing more than three stones per 500 grams are graded "rejected account of stones." These tolerances are rigidly enforced by government grain inspectors.

Care in Harvesting Pays. The use of faulty swathing methods is the main cause of admixtures of stones and earth pellets in threshed grain. The best way to avoid this damage is to make sure that stones and earth do not get into the swath. Swaths that are laid down carefully, and well supported by the stubble, can be easily picked up by the combine. Make sure, however, that the pickup fingers of your combine are run at a speed that will prevent them from throwing stones and earth on top of the swath. Proper reel adjustment is also important. Grade losses on account of stones and earth pellets are costly. For instance, if your barley is graded rejected on account of stones it may cost you anywhere from 10 cents to 25 cents per bushel. A little extra care in swathing and combining this year's light grain crops will pay good dividends.

SHORTER WORKING DAY . . .

The working day of American farmers is getting shorter. Experts report farmers averaged 10.7 hours of work per day last year. The previous year, they worked 11.2 hours per day average.

Your Community Is Judged
 By the Advertisers in
 "Your" Newspaper . . .

"No business man in any town should allow a newspaper published in his town to go without his name and business being mentioned somewhere in its columns. This does not mean you should have a whole, half or even a quarter page ad in each issue of the paper, but your name and business should be mentioned if you do not use more than a 2 line space. A stranger picking up a newspaper should be able to tell what business is represented in town by looking at its paper — it's the best possible town advertiser. The man who does not advertise his business does an injustice to himself and the town. The man who insists on sharing the business that comes to town, but refuses to advertise his own in the newspaper is not a valuable addition to any town. The life of a town depends on the live wide-awake and liberal advertising business men."

YOUR CODE OF THE ROAD****Special Sales To Be
Featured At Olds Mart**

Recognized as the most aggressive sales agency for livestock in Central Alberta, the management of the Olds Auction Mart last week announced a series of four special sales and the beginning of the regular fall feeder cattle sales.

Wednesday, September 24th, 50 head of good quality dairy cows will go under the auctioneer's hammer at a sale in the Olds Auction Mart that will start at 7 p.m. On October 2nd, there will be a horse sale in Olds. This is the annual Olds Auction Mart Fall Horse Sale, and more than 100 head of horses are expected for this sale, which will start at 1 p.m. Both ponies and heavy draft horses will be included in the listing.

Friday, October 3rd, will see the start of the annual fall feeder cattle sales in Olds. These sales will be held regularly every Friday thereafter until the end of the cattle feeder season.

Monday, October 20th, the Auction Mart will be the setting for a calf sale. Some 500 head of calves, mostly of Hereford breeding, are expected for this sale. Sale time is set for 1 p.m. and cattle can be removed immediately after sales as this is a Bangs free area.

The last sale of the special events

Squirrel Cage ...**GETTING UP TO DATE ...**

A speaker was talking to a bunch of teen-agers about things that happened in the West in an earlier day. He said Billy the Kid had killed 21 men before he was 21 years old.

A girl who had been listening open-mouthed said: "And what make of car did he drive?"

COULD BE ...

Preacher: "What binds us together, sustains us, shapes our ends, and makes us better than nature intended?"

Blonde parishioner: "Girdles!"

WISH YOU WERE THERE?

A rich old man threw his morning's mail angrily at his butler and grumbled: "All I ever get is stock dividends and cheques."

for the fall at the Olds Auction Mart will be a sale of 80 head of Landrace swine on November 1st. Newspaper advertisements will appear from time to time during the fall to keep sellers and buyers fully acquainted with the calendar of sales scheduled for the Olds Auction Mart.

Duck Stalgia ...

The Hunters of ducks are a crazy breed ...

A hole in the mud is all they need ...

A place to hide from a flying duck.

In eighty acres of smelly smuck.

The roads are bumpy —

In rain, they walk.

But the dumb duck-hunter will never squawk.

Though he slips in mud,

and wets his butt.

He won't complain, 'cause he's a nut.

If it were not so, he'd stay with his wife

And give his children a chance of life.

Instead of cavorting around,

by heck ...

And becoming a useless swivel-neck.

The hike from the car to the beat-up blind

Would make an elephant sore behind.

They wade in slime that would bog a flea.

Like a bunch of bums with housemaid's knee.

They stagger and stumble

and sweat, and swear

(Author Unknown)

When the flashlight shows they're half-way there. They gasp for breath and their muscles cruck. They hope they won't have a heart attack.

Then the mud-hens cackle, the black ducks flare.

And the hunters dance like Fred Astaire.

They fling decoys from sudden sacks.

And ninety percent land on their backs.

Then they stumble back and fall in the hole.

With a creek in the back, but joy in the soul.

Then they wait for dawn, all cramped and grim.

Hoping to heck that the ducks come in.

Their eyes burn out in the mid-day glare.

And duck lice delve in their thinning hair.

They hunt for cripples with galloping tread

And get back to the blind so dark, near dead.

That their duck-calls sound like a weak Bronx Cheer.

Dispersing the ducks in deadly fear.

I say it's wicked with a man with brains.

To risk his life in the fog and the rains ...

To wreck his muscles and damn his soul.

Just to squat in the mud of a slimy hole.

Would I ruin my health and risk my life,

And get in bed with the little wife.

Just to sit in a blind and suffer pain.

In snow and wind and sleeting rain?

Would I spend my money and waste my time.

And listen to lies in the winter time?

Would I do these things no sane man should?

BROTHER, YOU'RE GOSH

DARN RIGHT I WOULD !!!

o

**Outline Advantages Of
Teaching By TV**

Teaching by television, with the bright students doing most of their learning at home was recommended Monday to the Cameron Provincial Royal Commission on Education.

The recommendation was contained in a brief presented by the Edmonton Educational Study group, an eight-member committee of Edmonton laymen headed by Dr. K. A. Burnham.

Conceding that some types of education must be carried on in the classroom, the commission was told there were four main advantages to the wide use of educational TV:

Each student could proceed at his own pace; more efficient use could be made of teachers; instruction could be strengthened by visual aids; and adults and working persons could be reached by educators.

How Stupid Can We Get ???

In a recent splurge in this column we were stupid enough to ask a few questions about the status of the Town of Didsbury insofar as the provincial five-year-plan is concerned. Summing up a letter-to-the-editor which was printed in last week's issue we assume that we are being accused of being asleep at the all-important switch — the truth is we weren't really asleep, we were just dozing a bit and asking dreamily about a few improvements we had in mind for "our town." However, we were told in the epistle mentioned above that we should not direct enquiries to the "top brass" or any of the back-benchers. We stand corrected — we must have been living in a dream world, where anyone, at anytime could ask a few questions from governing bodies and receive a constructive answer. How stupid can we get?

Going farther into the shot at "yours truly" we gather the opinion that your favorite newsgathering service has not gone along with the provincial government's five-year-plan. This statement is far from true; check the article in question and you will find we swayed more with the plan than against it — all that was asked for was the answers to five small questions, which we reprint here:

"Do we get a kick-back on the roads that have already been paved in our town?"

"Does the Senior Citizens' Home, established for some time now, receive any kick-back?"

"How much assistance will come our way to provide such needed recreational facilities as an artificial ice plant in the arena and the curling rink?"

"What are our chances for a swimming pool?"

"Does anyone know just what size the chunk of cheese (referring to money in this instance) is expected to be?"

Maybe we missed it in the shuffle while we were dreaming away (as has been insinuated) but it seems no answer to any of our innocent queries have landed on our desk, even in the jet-propelled missile that landed in this area last week.

The federal government's conversion loan plan got into the picture somewhere along the line — we were accused of not giving enough bad publicity to the program, which is by the way still drawing many customers. Should you care to check the August 7th issue of this paper, for which this mis-informed writer was responsible for printing, you should find a wee skit which goes along with the thinking of the minority opposition.

Still talking to our harpoonist, we are very, very touched to learn that the citizenry are concerned about our welfare and well-being; when we went home to our little shack last night our good wife, tattered and torn, put a new set of cardboard soles in our shoes, the young datter made the remark that she would like to get away from the month-long menu of baked beans. What else could we do but make the remark: "Don't worry gals, the oil dividend should arrive any day now and we'll be living high on the hog, we'll be able to have beans with pork!" By now we have gathered that our welfare and well-being is in jeopardy — we've been told by an authority, who in our opinion must be either a long-range brain-washer or someone who might be very closely associated with the internal workings of the provincial government — he might even be a brother of an M.P. We're so dumb we wouldn't know.

Maybe we should take the advice of our astute and very critical back-bencher, maybe we should just stand still, not move anything, not even a pen, until we learn the facts of life, and ah, er, politics. The only thing wrong with this treatment is the fact that we've been so used to taking the bumps, the bruises and the backslaps (the latter were in the minority last week), that we won't at this time go for anything but a big slice of cheese, a slice to be delivered in the Didsbury area. The chief architect will now get back to the business of making up a facsimile of a newspaper.

Another Famous Quote . . .

"I love a finished speaker, I really, truly do. I don't mean one who's polished, I just mean one who's through." Now may we leave, until next week?

Guest Editorial

CHECKING THE SLOW DRIVER

Traffic safety is a real problem. A week or so ago a driver was fined in Edmonton for driving too slow on Highway 2, thus backing up traffic behind him in a dangerous manner. In California they have a regulation which requires a driver to turn aside and permit other cars to pass when he sees a line of five cars or more immediately behind him.

We have plenty of regulations here in Alberta but the problem is to get the drivers to heed them. For instance, we drove to Edmonton one morning this week and were riding along at 60 miles an hour, when all of a sudden a huge trailer truck turned out and passed us. The signs on the highway say that truck speeds should not be above 50 miles an hour.

Also late Saturday night we were driving down from Edmonton when car after car sped past us, and we were up to the maximum speed permitted by traffic regulations.

The driver who simply can't stand to have another car in front of him is the greatest menace on the highway. How to convince him of his dangerous attitude is more than a police problem, it is a psychological problem. A mere court conviction and small fine is not sufficient. Impounding the car is more effective.

Another angle that is getting a lot of attention these days is the driver with license suspension who ignores the edict of the court. The penalty here should be well in keeping with the contempt of the offender is showing. One hesitates to suggest a jail term, but the protection of the public safety really demands it.

More than half the fatal motor tragedies happens as the result of careless driving by offenders who have had five or more convictions registered against them. Surely this in itself is evidence sufficient unto the cause thereof.

— Camrose Canadian

CHRISTIAN SCIENCE

Recognition that true substance is only spiritual, brings individual growth and progress — this fact will be stressed at Christian Science Services Sunday.

Bible readings in the Lesson-Sermon on "Substance" will include the following: 1 John 2:15: "Love not the world, neither the things that are in the world. If any man love the world, the love of the Father is not in him".

A correlative passage from "Science and Health with Key to the Scriptures" by Mary Baker Eddy includes this (239:16-18,20): "To ascertain our progress, we must learn where our affections are placed and whom we acknowledge and obey as God. . . . The objects we pursue and the spirits we manifest reveal our standpoint, and show what we are winning."

The Golden Text is from 11 Corinthians (4:18): "The things which are seen are temporal; but the things which are not seen are eternal."

SERVICE BOARD NOTES

Service Board

GRASSING ROADSIDES: We are anxious to seed down the newly completed roadsides, especially in places where the ditches have been backfilled. This can not always be done in the same year that the road rebuilding job has been done. However, this year, we have had such favorable conditions that it may be possible to get through with the harvest and then have some time left over before freeze-up. It is up to you to work down these roadside ditches along your property and prepare them for grassing. We will do the actual seeding of the grass by hand with cyclone grass seeders and then we will expect you to harrow the ground again.

We don't want to seed the grass until later, when we will be sure that the seed will not generate any more this fall. If it is not possible in your particular case to get this job done this fall, we certainly want to do it next spring. We feel that it is important to get grass started in these newly-worked ditches just as soon as possible after the road has been built. Good grass cover will help to keep the weeds down and at the same time will keep the ground in place when water flows down the ditches. If these ditches have been well sloped and smoothly worked there will be the possibility of making hay in these roadside ditches. If you have roadsides to seed down and have them ready for seed let me know so that we can take care of the seeding job.

CONVERSION PERVERTED

One of the strange reasons given for the inexplicable "conversion loan" was the need for freeing the government of a number of issues soon to mature. No individual in his right sense would pay out money to get his debts converted to higher interest rates, but that is what the government is doing.

One of the issues maturing in the next ten years is a 2 1/2 per cent bond sold after the war. It was not a Victory Bond but some pressure of "patriotism" was put on the public just the same. That bond was down to 89 recently, and is now back up to around 93. It is not eligible for conversion, but 3 per cent Victory Bonds mature at about the same time are being converted, going up to over 4 per cent.

When the books close on the conversion, these old 2 1/2 per cent bonds will be in competition with the new 4 1/2 to 4 3/4 per cent issue. Who will want the old bond? What will happen to their price? Probably it will slip to the low 80's.

Such an injustice is just one of many harmful consequences of the ill-conceived conversion scheme. Nothing is said about that in the high-pressure publicity attending the campaign.

... so both are borrowing from a bank

When borrowing is sound business practice, it is a simple, straightforward process to arrange a loan from a chartered bank.

Every day, in every part of Canada, the chartered banks are lending money to farmers, fishermen, producers, manufacturers, processors and other commercial customers, large and small...to meet pay-

rolls, buy raw materials, market goods and meet a multitude of financial needs.

A bank manager is constantly on the lookout for opportunities to make such loans — that's his job. Bank loans are an essential part of the process that provides the goods and services that make life better for all Canadians.

Fruits Of The Harvest

Harvest time! To add to the
spirit and beauty of the season why
not use fruits or vegetables to
brighten up your home?

The fruit and vegetable king-
dom offer very brilliant colors and
interesting shapes that lend them-
selves well to creating attractive ar-
rangements. What has more vivid
color than red tomatoes, green cu-
cumbers, yellow corn, purple cab-
bage or orange carrots?

Fruit and vegetable arrangements
are simple to make yet offer the
arranger an opportunity to reveal
originality.

As a guide for successful work of
art simple rules should be followed.
Since fruits and vegetables lend
themselves well to the idea of domes-
ticity, heavier containers such as
copper, wooden or pottery platters
or bowls are ideal. Baskets are
also excellent. However, in some
cases, depending on the type of ar-
rangement, a place mat could be
used.

For an effective combination use
colors that harmonize together.
Yellows, greens and orange are at-
tractive together while a purplish
red with bright red is not so pleas-
ant.

If leaves are used in a fruit or
vegetable arrangement, the leaves
should be dried or should be leaves
that do not require to be put in
water. To keep the principle of
unity, flowers with vegetables or
fruit should not be used together in
the same arrangement.

To create interest combine fruit
and vegetables that are different
in color, size and shape.
A mound of crab apples in a low
copper dish looks very cheerful and
attractive.

A low compact arrangement for
a kitchen is one with squash, cu-
cumbers and red tomatoes. This
could be placed on a bamboo mat.
Bright vegetables in a reed bas-
ket appear appropriate and color-
ful in a kitchen or dining area.
Corn, white cauliflower, purple egg
plant and red cabbage and green
broccoli are an effective combi-
nation.

Fruit and vegetable arrangements
seem to gain up the thought of
this time of the year that "Summer
flowers have brought autumn
fruits".

Transplanting Peonies
Once established the showy, popu-
lar peony doesn't like to be dis-
turbed, says P. D. McCalla, Alber-
ta's Supervisor of Horticulture.
Division and transplanting may
take place, however, when the plant
become too crowded or when new
stock is wanted. For new stock
never divide a plant under three
years. Plants 10 years and over
respond more favorably.

Choose a sunny, well-drained lo-
cation for the new plants, protect-
ed from wind but not too close
to tree or shrub roots and prepare
the soil for the years ahead. Cul-
tivate it to a depth of over one foot
using good loam mixed with 20
per cent well-rotted manure. If the
manure is not well-rotted keep it
away from direct contact with the
roots.

Early in September carefully dig
down at a distance of 15-18 inches
on either side of the old plant so
that roots won't be bruised or in-
jured. Lift the clump, shake thor-
oughly and place in the sun for
two to three hours. Roots then
lose their brittleness and will be
easier to separate. Using a sharp
knife cut into pieces at weakest
points. Each piece should have at
least four strong pink shoots. Re-
move and discard all hollow or
damaged spots and cut foliage
back to two inches.

When planting, the crown of the
peony should be two inches from
the surface. Too shallow planting
may result in winter kill; too deep
planting may retard blooming for
another year. So that settling
won't take place, firm earth around
roots.

CHUCKLIN' AGAIN . . .
Woman driver: "Can you fix this
fender so my husband won't know
I bent it?"
Mechanic: "No. But I can fix it
so you can ask him in a few days
how HE bent it."

Notes From D.A.

District Agriculturalist
By HOWARD FULCHER

Pigs fed well-balanced rations
and provided sanitary quarters will
prove profitable. Essentials in swine
housing are dry pens, free from
draughts. For farrowing and wean-
ling pigs artificial heat will pay
dividends.

In summer months provide good
rotating pastures for growing pigs
and brood sows, alfalfa is consid-
ered the best but grain crops may
be used. Do not have wallows in
pig runs, they are only a source
of disease and parasites.

In management first consider the
brood sow, the gestation period is
112-114 days, have a farrowing pen
ready. The feed should be sloppy
and laxative, a few days before
farrowing, bran can be substituted
for some of the grain. Potassium
iodine should be fed during the
last six weeks of pregnancy.

Provide a creep for sucking pigs
at four weeks of age. Feed a com-
mercial pig starter or a mixture of
ground hulled oats, tankage and
feeding oil. Castration is best done
at about five weeks of age and pigs
weaned one or two weeks later.

Feed mixture for weaning pigs
should be about two parts ground
barley to one part ground oats sup-
plemented to give a 16 per cent
protein content. For growing pigs
up to 150 pounds the proportion of
barley can be increased and pro-
tein level lowered to 12 per cent.
When the hogs reach 150 pounds
they may be fed all barley or barley
and wheat chop with some protein,
however, if the pigs are a little
thick or should be kept in the
ration to secure top grades. During
all the feeding periods mineral must
be fed, that is, salt and ground
limestone. This may be fed with
the feed or free choice. Fresh
water should be provided in ample
amounts.

LIGHT FOR THE LADY

THE LOCAL NEWSPAPER
MAINTAINS ITS
INFLUENCE

- How often a successful executive, far from his small-town birthplace — maintains his contacts through regular receipt of his weekly newspaper.
- There is nothing quite like a small town weekly for neighborly news and intimate contacts.
- People in the advertising business talk about selected audiences — sharply focused circulation. They have learned from experience that when a publication is specially edited to appeal to the specific interests of a smaller group of people, its opportunities to make sales are multiplied many times over.
- The weekly newspaper is that kind of publication. Whether its circulation is a few hundred or a few thousand, it represents effective circulation.
- Gather the towns-people and farm folk around you when you advertise. Surround yourself with friendly neighbors — deliver your advertising message through your local weekly newspaper.

58.2 Per Cent of Canada's population live in places of 10,000 or less. THESE ARE WEEKLY NEWSPAPER MARKETS.

Civil Defence Program Explained . . .

"Since the dawn of history, mankind has banded together in families, clans, tribes, communities and countries for the mutual protection of all.

"If you think back to the early settlers with their stockades, forts, vigilantes, wagon trail circles at sundown, you can see that community co-operation has always existed in man's battle of survival. This ancient tradition is carried down today by your Civil Defence organization," stated Civil Defence Director, Mr. William J. Bagnall, of the Municipal District of Mountain View, in explaining the dual role of his organization in peace or war.

He said: "The same type of survival services are just as essential in peace time as they would be in war time emergencies. Help and aid for casualties from fire, flood, tornado, explosion or earthquake is an ever present need.

Today with the threat of nuclear warfare, we have in Canada an organization known as Civil Defence. It is basically a volunteer group of citizens whose job it is to be prepared for natural disaster as well as disaster caused by enemy attack.

Personnel already enrolled in

Civil Defence include the police, with volunteer auxiliaries to maintain law and order, and the fire services, with their volunteers to meet the additional hazards in time of disaster.

Citizens trained as wardens, provide aid, information and leadership for the people. The care of casualties is a paramount requirement in all emergencies, and the Health Services — trained first aiders, doctors and nurses — are essential for the maintenance of community health.

Other specially trained personnel include rescue workers for removing people in buildings damaged by blast, fire, flood, earthquake and other natural phenomena.

The population must be kept informed in order to minimize fear and shock reaction. This work is undertaken by Information Services.

In order to keep the public utilities, such as electricity, gas, water and sewers operating, special forces trained in engineering have an important role to play, while food, shelter and aid to the homeless are services provided by welfare workers. The transportation section is responsible for the movement of all

of these services, plus the planning for the evacuation of the population.

All of these types of services and skills are found in any community and provide the basis for mutual aid between one person and another. Only Civil Defence can band these valuable and skilled workers together in a cohesive and operating unit. When this is accomplished, Civil Defence is ready to meet disaster, man-made or from natural causes."

DISTRICT NEWS

M.V.B.C. NEWS

(From Our Own Correspondent)

The electric wiring has been done in the Student Centre. The students will have no difficulty getting their physical exercise this winter, and we believe it will definitely solve the health problem to a large degree.

This week President and Mrs. Taylor, Mr. and Mrs. Arthur Eby, Mrs. Suder and Miss Eby attended the Stauffer-Nelson wedding in Lacombe. Mr. Clifford Stauffer and Miss Alice Nelson, married on Wednesday of last week, will reside on campus while the former continues his work in the college during the winter months.

Miss Gladys Eby was a dinner guest in the home of Mr. and Mrs. Maynard Snyder on Sunday.

Mrs. Edna Eby entertained at lunch on Friday on the occasion of Mrs. Taylor's birthday.

President Taylor left for Elkhart, Indiana on Wednesday evening to attend the educational board meeting and also the publications board meeting of the United Missionary church. He will return next week.

Mr. Taylor is editor of Sunday School publications of the church, and this year will have a co-editor to assist him.

Mr. Mervin Traub leaves this week for Portland, Oregon, where he will enroll as a student in Cascade College.

Miss Edith Ries, Reg.N., and Miss Ruth Eby, Reg.N., were visitors in the home of President and Mrs. Taylor Saturday afternoon. Miss Ries is taking further work at Cascade College and Miss Eby will conclude her work in preparation for the mission field at Seattle Pacific College this year. She is a graduate of this college as well.

Keith Taylor started school this fall and is quite enthused with it. At present he is interested in model planes and takes great pleasure in having his Dad put them together for him.

School will open October 7th and friends having extra vegetables, meat, poultry, eggs, etc., for the college are asked to contact Mrs. Edna Eby.

FALLEN TIMBER

(From Our Own Correspondent)

Mr. and Mrs. Vern Johnson have had the latter's brother-in-law and sister visiting with them from California.

Mr. and Mrs. Joe McGaffin, Anne and Gordon, Mr. Mark Sweet and Miss Edna Bruns, were visitors at the home of Mr. and Mrs. Elmer Bruns of Carstairs on Sunday.

Recent visitors in the district were the Rev. Bob and Helen McGaffin and family of Edmonton and Rev. S. Clinton and Jacqueline McGaffin and son of Beverly.

Mr. and Mrs. J. H. Cooper of Canmore were visitors at the home of Mr. and Mrs. Johnny Howton on Saturday evening.

A regular meeting of the Busy Bee was held at the home of Mrs. Joe Teynor recently, with a good attendance. It was decided to start having films again in October. It was also decided to "hobo" Mrs. Margaret Welch on Wednesday in Cremona.

Mrs. Rose Howton won the tent-draw. The October meeting is scheduled at the home of Mrs. Ruth Roberts.

Dinner guests at the home of Mr. and Mrs. Johnny Howton on Sunday included Mr. and Mrs. Bob Moore, Judy and Brian, Mrs. O. Moore, Mrs. Lily McGaffin, Mrs. Ruby Moore, Gary and Monty.

Mr. and Mrs. Joe Teynor, Mr. and Mrs. Johnny Howton and family, and Mrs. Martha Berscht were visitors last Wednesday evening at the home of Mrs. Emma Berscht.

As you know, school has commenced again, with Mrs. Arlie McGaffin as teacher. There are four beginners: Donna Teynor, Robert McMullen, Patty Koester and Joy Pyten. Rosalie Vanholland is taking grade nine in Sandre and Vernon and Mickey Whittle are taking their grade nine in Cremona. Dorothy Stair is taking her grade 11 in Cremona and Gordon McGaffin is working in Cremona school on his grade 12.

A heavy frost was felt pretty well all over the district last week, putting an end to most gardens.

Mr. and Mrs. Johnny Howton and family were visitors at the home of Mr. and Mrs. Dean Stair and family Saturday evening.

We understand a number of the Stair family and Mr. Jasper De-rudder went to Pine Lake on Sunday.

Mr. and Mrs. J. H. Cooper of Canmore, and Mr. and Mrs. James Cooper and Wesley of Calgary, were visitors at the home of Mr. and Mrs. George Admusen over the weekend.

Westcott News

(From Our Own Correspondent)

Word has been received of the birth of a daughter, Diane Rose, to Mr. and Mrs. Dave Olechriest, of Edmonton. Mrs. Olechriest is the former Miss Margaret Robertson.

Mr. and Mrs. Jack Robertson visited at the weekend with Mr. and Mrs. Don Olechriest in Edmonton. Mr. Wilbert Berscht, who is recuperating from a recent illness, has been visiting with Mr. and Mrs. Herbert Goetjen.

Mr. and Mrs. Bob Bookwell and the latter's mother, Mrs. Bogner of Calgary, spent a few days visiting with the Bogner and Baudistel families last week.

The newlyweds, Mr. and Mrs. Howard Robertson, have returned from their honeymoon and are now getting settled on the farm.

Friends of Mrs. Elaine Card will be pleased to hear that she is improving in health since her emergency operation last weekend.

HAVE YOU HEARD ABOUT CIVIL DEFENCE?

Hoping won't stop an H-bomb. Ward off the threat by making Canada's Civil Defence strong.

Take interest and support your local Civil Defence organization. This year Civil Defence Day falls on Friday, September 19th.

Are you interested? If you're not you should be!

LIGHT YOUR WAY . . .

... WITH BIBLE STUDY

"I believe in God." Every person believes in a being higher than which nothing exists. That for him is "god." Some believe in Nature, others in Law, Chance, Fate, the Unknown Essence, the All in All, the Cosmic Principle, Allah, the Architect of the Universe, the Great Designer, etc. But none of these is the true God.

The true God is the God of Holy Scripture. The Bible describes Him by saying: "God is Spirit." That means, God is a Being endowed with a mind and will but without a body. You can not draw or paint God. We sometimes see Him pictured as an old man with a long-flowing beard, but that is merely one artist's conception.

Therefore we must turn to Scripture to read the many descriptive passages telling us about God. As we study these, we receive a clearer picture. These are a few such passages: "From everlasting to everlasting, Thou art, God." God is eternal. "I am the Lord, I change not." God is unchangeable. "I am the almighty God." God is all-powerful. "Lord, Thou knowest all things." God is omniscient. "I, the Lord your God, am holy." He is without sin. "He abideth faithful." He keeps His promises. The Lord is good to all. These verses describe God, give us His characteristics, or attributes.

There is only one true God. That is the Trinitarian God: Father, Son and Holy Ghost. In this divine essence there are three distinct, separate persons. Each of these persons is not a third part of God, so that together they three make the complete God. Each is full God. Nor is each person a different phase or manifestation of God. Each is a Person, a distinct Person. There is no analogy of the Trinity anywhere in the realm of nature or reason. In faith we accept the Word: "Go ye therefore and teach all nations, baptizing them in the name of the Father and of the Son and of the Holy Ghost." In faith we then say: "I believe in God — the Trinitarian God of Sacred Scripture."

All people who believe in the Trinitarian God are called Christians. People who do not believe in the Trinitarian God are not Christians.

Little Items of Local Interest

LAC J. Gilrie, Mrs. Gilrie and family, arrived Friday from Trenton, Ont., on a month's leave, and will visit with relatives and friends in the town and district.

Mr. and Mrs. C. G. Campbell and family have taken up residence in Didsbury, in the house formerly occupied by Mr. and Mrs. Charles Dougherty, who have been transferred to Brooks.

Mrs. Len Slipp and Gary returned last week following a summer visit to Great Britain. They report a wonderful holiday and the young fry around town are enthralled with Gary's detailed description of Madame Tussaud's famous gallery of international figures.

Miss Judy Allen left Monday to take up residence with uncle and aunt, Mr. and Mrs. Ian McKinnon. Judy will attend Mount Royal College this year.

The "Happy Gang", one of the most popular morning variety shows on Canadian radio, had a visitor from Didsbury on Tuesday morning of this week. Local residents were surprised to hear greetings from Mrs. J. R. Cunningham, who is holidaying in Toronto at the present time.

Mr. and Mrs. George Thring, Teddy and Paul-Lynn, were Didsbury visitors Sunday.

Miss Beverley Shannon left Monday to take up residence at Mount Royal College, Calgary, where she will be a student this year.

Mr. and Mrs. A. Freeman and daughter have returned to Fort St. John following a two-week visit in these parts.

Mr. and Mrs. O. Reiffenstein and daughter, of Port St. John, B.C., are visiting with the former's mother here. Other guests of Mrs. Reiffenstein at the weekend were Mr. and Mrs. R. Reiffenstein of Red Deer.

Mr. and Mrs. Fred Burwell returned home Friday from a three-week vacation in Toronto. They visited with their sons, Lloyd and Stan, and their families. While there they attended the Canadian National Exhibition.

Miss Donna Whaley, a niece of Mr. and Mrs. Bruce Parker, has been visiting with them for a few days.

Mr. and Mrs. Ed Ford are attending the Federal Automobile Association convention in Banff.

Services at St. Cyprian's Anglican Church will be held Sunday, September 14th, at 3 p.m.

ACCIDENTS CAN HAPPEN ANYTIME, ANYWHERE . . .

Subject matter for editorials is not always the easiest task in putting out a good newspaper and sometimes we are tempted, when reading a contemporary newspaper, to pick up a worthwhile writing.

The following is from the Powell River News which might bring a smile to your tanned, tired face: The Manchester Guardian offers the following plausible story, in a letter from a brick-layer to his employer:

"Respected Sir: When I got to the building I found that the hurricane had knocked some bricks off the top. So I rigged up a beam with a pulley at the top of the building and hoisted up a couple of barrels full of brick.

"When I had fixed the building, there were a lot of bricks left over. I hoisted the barrel back up again and secured the line at the bottom.

"I then went up and filled the barrel with the left-over bricks, came down and cast off the line. "Unfortunately, the barrel of bricks was heavier than I was and before I knew what was happening the barrel started down, jerking me off the ground. I decided to hang on and half-way up met the barrel coming down and received a severe blow on the shoulder. I then continued to the top, banging my head against the beam and getting my fingers jammed in the pulley. When the barrel hit the ground it burst its bottom, allowing all the bricks to spill out.

"I was now heavier than the barrel and so started down again at very high speed. Halfway down I met the barrel coming up and unfortunately received severe injuries to my shins. When I hit the ground I landed on the bricks, getting several painful cuts from the sharp edges. At this point I must have lost my presence of mind, because I let go of the line. The remaining barrel came down, giving me another blow on the head and putting me in hospital.

"I respectfully request sick leave."

Coming Events

The September W.C.T.U. meeting will be held at the home of Mrs. Ira Gamble on Thursday, Sept. 11, at 2:30 p.m.

Regular Brownie meetings will commence on Tuesday, Sept. 16th, at 3:45 in the Lions hall. Anyone interested in assisting with the Brownies are asked to attend this meeting.

The Didsbury Girl Guide Company will hold its first meeting of the 1958-59 season on Tuesday, Sept. 16th, at 7:30 p.m.

Golf Notes . . .

The Didsbury men's golf team held firm hands on the Chookook Trophy at Carstairs on Sunday. They gained 42 shots over Innisfail, the only other serious contender.

They now go to Innisfail on Sunday, Sept. 28th, with 50 shots to spare. At this time it looks like the local team should be a shoo-in for the trophy.

C. Sorenson showed that "back to school" agreed with him when he shot a fine 68, which included a second nine of 32. S. Moore had a score of 70 and the rest of the team played nice and easy for a total of 449.

However the locals shouldn't get too "big-headed" — on Sunday Innisfail were minus three of their regulars and are unfortunate to be so far behind.

LONE PINE ORIOLES HOLD REGULAR MEETING

The August meeting of Lone Pine Orioles was held on August 16th at the home of Patsy Schneider. The roll call, "My Favorite Pastime" and "Scheduling For Lake To Do In The Girls' Club Next Year," was answered by 16 members.

Karen Brander made a motion that the club pay for Mrs. Shirley Thompson's swimming lessons. This motion was seconded and carried. A report from Olds on the handicraft for the coming year and for last year was given by Mrs. Hazel Milne, assistant supervisor.

Sheryl Shields made a motion that the club have its meetings on Friday evenings instead of Saturday afternoons until winter. This motion was seconded by Joyce Underday. It was decided to make program books the following evening at the Brander home.

Election of officers for the coming year took place. Two new directors were elected, Donna Cliperley and Marilyn Zeigler; the rest of the executive is unchanged.

WEDDINGS**HAYNE — JONES**

A very pretty wedding was solemnized in Magnolia Presbyterian Church in Seattle, Wash., on Aug. 15th, when Susan Elizabeth Jones, only daughter of Mr. and Mrs. E. B. Jones of Seattle, became the bride of Mr. Charles Ronald Hayne, younger son of Mr. and Mrs. H. L. Hayne of Didsbury. Rev. J. H. Chambers, pastor of the church, performed the ceremony.

The bride, given in marriage by her father, wore a white tulle gown of her own designing, as were the dresses of her four attendants. They wore pink faille sheaths with bustle backs. The matron of honor as well as the three bridesmaids, were girls from Seattle.

Mr. Lynn Bottoms of Calgary was best man and the five ushers were also from Seattle. Little Gretchen Peterson, cousin of the bride, was flower girl.

The bride's mother wore a princess style dress of aqua crepe, while the groom's mother wore a dress of powder blue lace over satin.

Following a wedding trip to Banff and Lake Louise, Mr. and Mrs. Hayne will make their home in Bellevue, Wash. The bride is a graduate of the University of Washington and the groom will return to university to continue his studies in aeronautical engineering.
